

# Circles of Light

Murray Little

Circles of Light

World population estimated to hit 8 Billion on Nov 15, 2022  
Capo 3

D D A G// D// D

D Em// A//  
I look through my window 40 stories high  
D Em// A//  
Kalidescope of colour dancing in my eyes  
D Em  
Ever changing patterns, pulsing in the night  
A D  
Shimmering Circles of Light.

## Chorus

D D  
Circles of Light, Circles of Light  
A  
Some dark and dreary  
G// A//  
Some burning bright  
D D  
Some slowly dimming, fading from sight  
A D  
8 billion Circles of Light.

One stands alone, underneath a bridge  
Two walk together along a river's edge  
Three on a hill side, framed against the night  
Tiny little Circles of Light..

## Chorus

Colours of the rainbow, mingle as they flow  
Dancing through the meadows, stumbling through the snow  
Don't know I'm watching, don't know I'm there

To each one, I whisper a prayer ...

## Bridge

A G// D//  
"Find order in the chaos, victory in defeat  
A G// D//  
Your voice in the silence, the power of the meek  
A G// A//  
Success in your failures, what is wrong, what is right  
G// A// D  
My precious Circles of Light".

## Chorus

Outro same as intro
