Slow Dancing

## Tenor Uke - FS

Walk the highway to the gravel  
Down that hard packed road  
To the cabin by the water  
The two of us would go

Sit upon the front porch  
Watch the evening sun go down  
Listen(ing) to the night  
Take you in my arms ... we'd be

## Chorus

Slow dancing, slow dancing,  
Feel your beating heart next to mine  
Slow dancing, slow dancing,  
Together while the world's marking time

Every year we came here  
Our secret rendezvous  
Sipping oak aged whiskey  
Dancing 'neath the moon

Waking in the morning  
Coffee's on the stove  
Running through the long grass  
Wading on the shore ... we start

## Chorus

Now I walk the highway to the gravel  
Down that country lane  
To the cabin by the water  
Where the ghost of you remains

Pour myself a strong one  
Maybe two or three  
Drifting off to dream  
You are next to me, then I'm

Free falling, free falling,  
Though a broken hearted dream  
Free falling, free falling,  
Hope I wake before I hit the ground
